

Adjustable nose pad for Acetate

Non-allergenic, non-slip silicone nose pad.

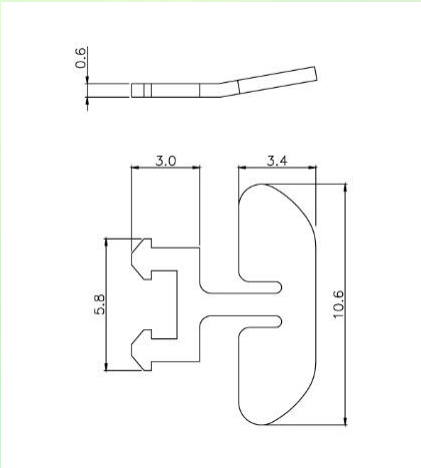

The height of the nose pad can be lowered by 2.0 mm, only by exchanging the left and right pads.

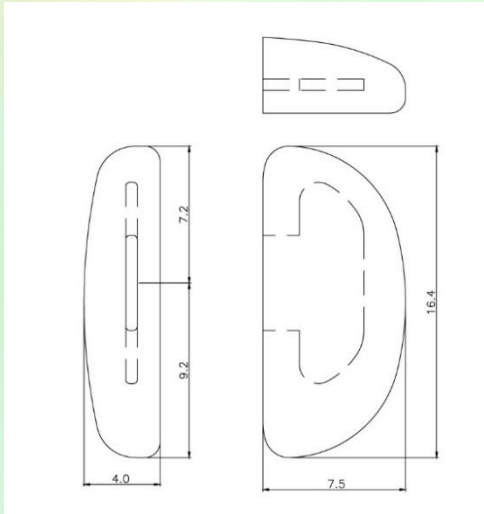

The height of the nose pad can be lowered by 2.0 mm, only by exchanging the left and right pads.

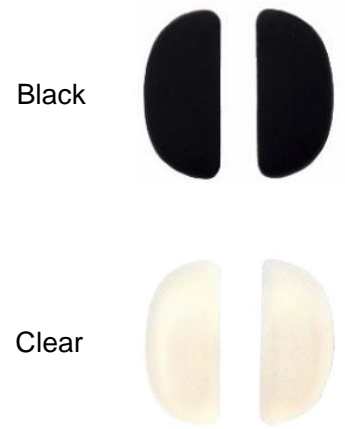

**Insertion pad arm:
MPA-07 (stainless steel)**

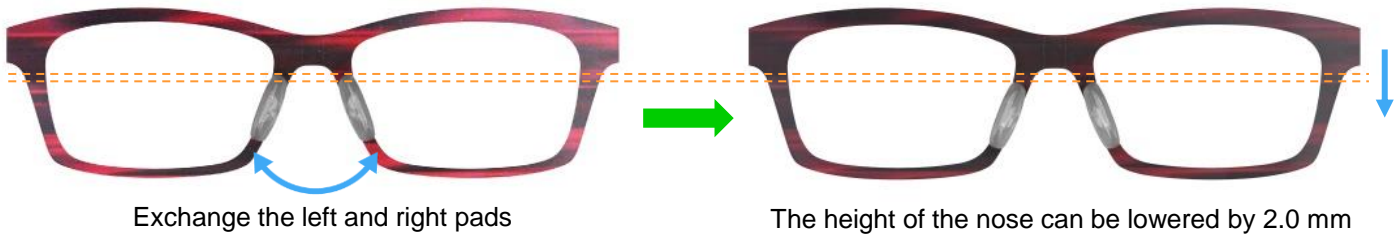

Nose pad: MP-07 (Silicone)

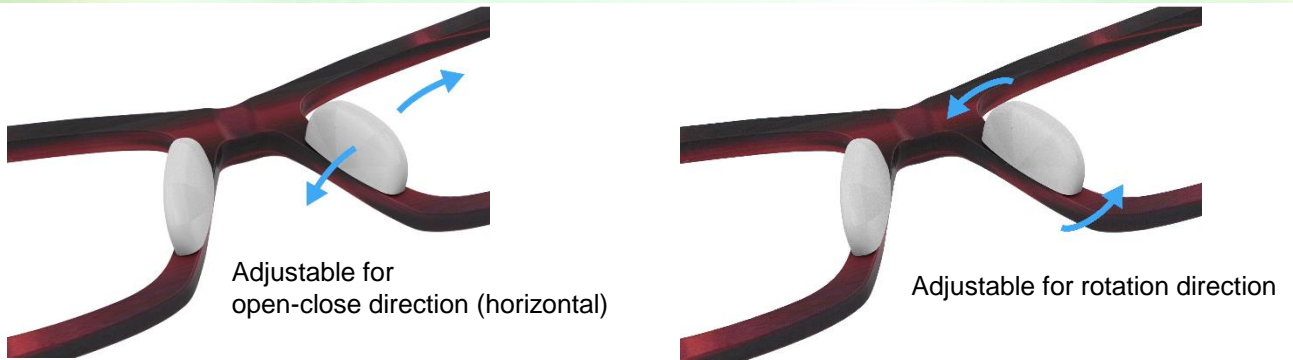

Color Variations

Feature 1: The height of the nose pad can be lowered by 2.0 mm, only by exchanging the left and right pads.

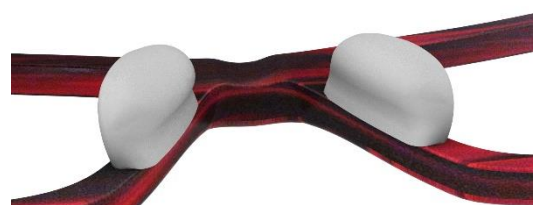

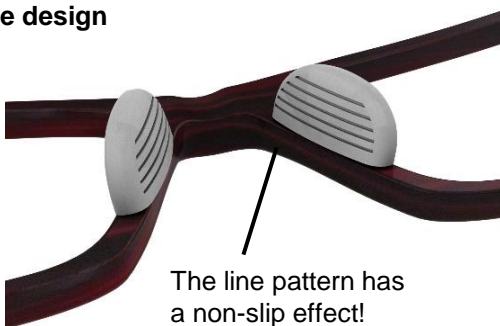

Feature 2: The direction of the pad can be adjusted.

It is more effective to make the adjustments with the nose pads removed.

Feature 3: Original design is available.

Reference design

Effect - Harder for eyelashes to touch the lens!

Original colors are available.
