

SUPER THIN TEMPLE Vol.3 LINEA V3

Round-cross-section type and triangular-cross-section type have been added to the super thin temple series! Same wire cores are used in each type but different lens effects happen depending on the shape of the cross section. Silver and gold colors are available for the wire core.

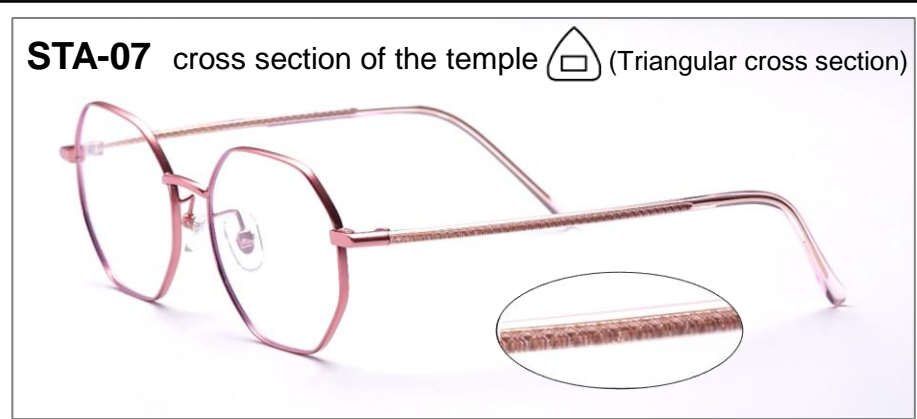

STA-06 cross section of the temple  (Round cross section)

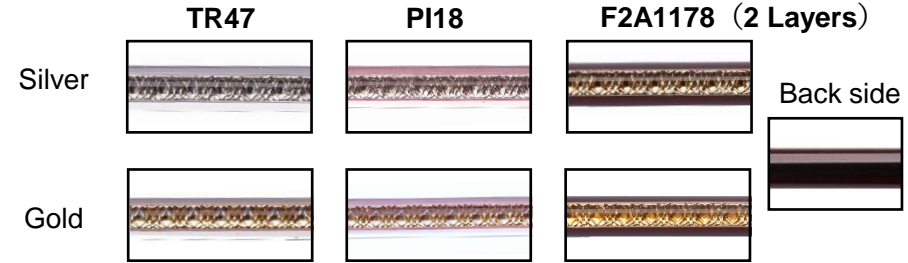

Reference colors Samples are available for the following colors.

STA-07 cross section of the temple  (Triangular cross section)

Reference colors Samples are available for the following colors.

We have **182 standard colors**. Note: 2-Layer types are also available.

You can check all of them on our web page. <https://www.eurovision.co.jp/en/acetate/color.html>

And all colors from **our partner manufacturers** are also available. We will arrange the acetate orders directly.
