LINEA V2

BTT-02 / PET-D

BTT-02 / PET

CW-FLEX S / CW-S1

CW-FLEX S / CW-S2

**STM-01ET** Material: Stainless steel

We have an acetate temple tip with UP sticker.

**LINEA V2** Material: Acetate (Wire core: stainless steel)

Super thin acetate temple. By using transparent acetate material, various nice designed wire cores are displayed.

**CW-FLEX S/CW-S1** Material: Stainless steel (beta titanium is also possible)

Super thin temple with only a thickness of 1.0 mm made from high-elastic stainless steel.

Flex function is available by the special cutting structure.

CW-S1

CW-S2

**BTT-02/PET-D** Material: Beta titanium

It is a design for using ART-FLEX. We also have temple tip type, BTT-02/PET.
