Combination of Acetate and Silicone

# Difference between Silicone and Rubber

When burning,  
It becomes  
white ash.

Silicone

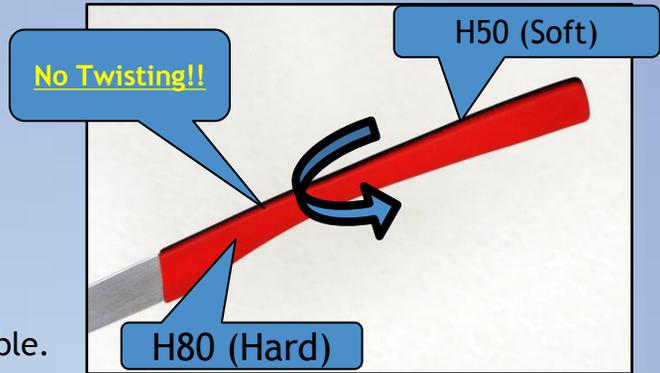

When burning, it  
melts with black  
smoke.

Rubber

# Combination of Different Hardness

In general, easy twisting is not acceptable.

**But, “easy twisting” could be even more interesting and attractive.**

**Business Time: Black**

**After Five: Let's enjoy!!**

**JUST TWIST!!**
