

Insertion Pad System TPA-010

The 1-pin type Insertion Pad System models TPA-08 and TPA-09 have been available, and now TPA-010 has also become available!

TPA-010

Only M1.0 is available

TPA-010 has a shape similar to the TPA-08, but the length from the insertion position to the hanging position is 3.7 mm, which is 1.0 mm shorter than that of the TPA-08.

A feature of the 1-pin type

Material: Beta titanium **Inserting part:** Stainless steel

The cost is reduced by using stainless steel for the inserting part!

There are two other types of 1-pin type

M1.0 and M1.2 are available in both types.

TPA-08

TPA-09
(Gooseneck-Shape)
